## Economic Information Watch

BMGI International, company specialized in the new technologies of information and communication offers to companies an essential tool to help them develop their capacity to anticipate the markets, determine the potential needs, identify the technological innovations, forecast the modifications and behaviours of the economic, political and social actors.

The **Information Watch** is a system of assistance to decision-taking. It consists in collecting useful information for companies from every information source.

Our raw material is the information of the economic environment in Algeria. This information which is vital to the success of your projects will be put at your disposal. The analysis of the various aspects of the economic environment will also enable you to develop the pro-activity and face competition.

The Information Watch offers numerous advantages to economic operators, namely:

- ❖ Supervision of the spheres of activity of subscribers.
- ❖ Monitoring of competitors and new inputs on the market.
- ❖ Regular follow-up of the informational environment.
- ❖ Customized service, at the request of the customer.

### Subscription to Information Watch

The subscription should be done by sub-heading, by specifying the duration and the sector to supervise.

Currency	Duration of subscription
